The abatement of noneducational property taxes is based on the market value of specific assets; therefore, the actual amount of taxes abated is determined each year as the property is assessed and valued. An abatement of noneducational sales and use taxes shall apply only to tangible personal property and taxable services incorporated into private use industrial property, the cost of which may be added to capital account with respect to the property, determined without regard to any rule which permits expenditures property chargeable to capital account to be treated as current expenses. No abatement of sales and use taxes shall extend beyond the date private use industrial property is placed in service. A verification inspection of qualifying property will be conducted by the Alabama Department of Revenue to insure compliance with Section 40-9G-1 et seq., Code of Alabama 1975, as amended.

I hereby affirm that, to the best of my knowledge and belief, the information in this application and any accompanying statement, schedules, and other information is true, correct and complete. I also hereby affirm that no project agreement has been or will be entered into with the Governor of Alabama for the provision of other incentives for this project.
